

FAASTeam presents:

Mountain Flying

Flying in the mountains can be quite spectacular. There are many unique aspects about flying in the mountains that pilots need to be aware of in order to do so safely. This seminar with touch on the following topics:

- Mountain meteorology
- Flying mountain passes
- SOPS and contingency planning

Do not miss this extremely useful seminar. There will be time at the end to ask questions.

Jason, along with a number of other highly knowledgeable flight instructors, will conduct a multi-day Mountain Flying clinic in August. The purpose of this clinic is to teach an understanding of mountain meteorology, high altitude operations, high altitude physiology, and survival preparedness. Click here for more information:
